

DAMAGE IS DONE

THE DAMAGE IS DONE. NOW WHAT?

Sticking your phone in a bowl of rice is NOT the answer.

DON'T PANIC, WE CAN HELP!

REMEMBER THESE IMPORTANT STEPS

STEP 1

SHUT OFF YOUR DEVICE

Helps to prevent a short circuit

STEP 2

DON'T PLUG IT IN

Water and electricity don't mix

STEP 3

TEKDRY WILL DRY YOUR DEVICE IN 30 MINUTES

We'll use our in-store TekDry®
water removal machine

HELPFUL TIPS

If your phone is dropped in salt water, turn it off and rinse with fresh water to prevent corrosion from the salt.

The heat from using a blow dryer or oven can warp and damage sensitive equipment in your phone.
